

NVivo Foundations Workshop (One Day)

This workshop introduces the core components of working with NVivo. Participants will develop a clear, structured approach to organising, coding, and working with qualitative data within their own research projects.

Workshop Content includes:

- Introductions and Objectives
- Creating and Structuring Your NVivo project
- Working with Text and Media
- Capturing your Notes
- Analysing Your Data
- Exploring Text
- Automated Processes
- Exploring Other Features

Practice session working with your own data in NVivo
