

NVivo In-Depth Workshop (Two Days)

This two-day workshop provides a structured and practical approach to working in depth with NVivo. Participants will learn core skills and then build on these to explore patterns, and insights within their data.

Day One: NVivo Foundations

Workshop Content includes:

- Introductions and Objectives
- Creating and Structuring Your NVivo project
- Working with Text and Media
- Capturing your Notes
- Analysing Your Data
- Exploring Text
- Automated Processes

Day Two: NVivo Next Steps

Workshop Content includes:

- Recap and questions from Day One
- Classifying and Grouping Your Data
- Working with Other Data
- Exploring Your Coding
- Linking and Visualising Your Data
- Reporting and Exporting
- Managing Your Project
- Further Resources

Workshops are interactive, with opportunities each day to work directly with your own research in NVivo.
